MOBILE DENTAL CLINIC SOLUTIONS

- ✓ Fast Deployable Solutions
- ✓ Custom Design and Development
- ✓ Plug and Play Projects
- ✓ Market Growth
- ✓ Fully Equipped and Integrated Systems
- ✓ State-of-art Facilities

At **HospitalesMoviles.com**, we plan, design, develop and manufacture medical and related turn-key projects for the private sector, military, and international governments. The focus is to deliver Fast Deployable Modular Solutions that include: **Mobile Field Hospitals, Covid Ready Hospitals, Dialysis Clinic, Prefabricated Mobile and Modular Hospitals, and specialized units.**

In your Mobile Hospital and Modular Solutions, we apply sophisticated engineering to help create fully integrated, deployable, and mobile healthcare solutions, offering a variety of services and applications regardless of geographic location or climate.

WHY USE MOBILE DENTAL CLINIC?

Custom Clinic: We help achieve your request, and idea in order you can serve your patient better, in a modern, and well-equipped mobile dental clinic.

Market growth: With the use of a mobile dental clinic reaching new patients and reaching new growth goals will be easier because of the accessibility to new communities and people.

Fast Respond: Mobile dental clinics are not the usual way we see dentists; however, they are proven, and state-of-art facilities that provide patients with the quality care they deserve.

TECHNOLOGY

Mobile Hospitals and Clinics are perfect for Fast Response Deployment and Installation systems in terms of Capacity, Solution, and Available services.

At HospitalesMoviles.com, we design scalable systems that meet today's medical needs but can be expanded, taken to any location, and re-used in other locations.

These Rapid Deployment Solutions can be put on regular flat fields, level, over beams or concrete, or even trailer-based
