VERTISA Corporation is a custom medical waste technology manufacturer of high-pressure autoclaves, shredders, and steam generators of all types and sizes. We are the only company in the world offering: A One-Stop Shop for All PRE and POST Shredding Systems that meets clients' needs, specifications, and budgets.

VERTISA is a full-service company and global leader in infectious medical waste treatment technologies and many other sterilization applications. We supply equipment and systems for the Hospital sector, Sterilization Center, Surgical areas, and Medical Sterilization Areas.

We continuously apply sophisticated engineering to developing cost-efficient technologies that affect our client's bottom-line while being responsible to preserve and protect our environment through Green Certified Solutions. We operate under ISO 9001, ISO 14001, OHSAS 18001, PED (97/23/ EEC), and EN 285 directives among others.

PROPERTIES AND FEATURES OF VERTISA SYSTEMS:

- Fully automated and manual controls
- User-Friendly interphase
- · Small space needed for compact systems
- Volume waste reduction
- Environmentally friendly systems
- No water uses
- Available in Modular, Compact and Industrial Sizes
- Electric, Gas, Diesel, or Dual Steam Generators
- Pre and post integrated or separate shredder and autoclaves

- · Powerful vacuum and high steam efficiency re-utilization systems
- Automatic carts elevators
- Anti-Jam shredders
- Safety control systems by PLC
- · All autoclave systems are made of stainless steel 321 rust resistant
- Odor control reduction, deodorizer
- 8LOG10 sterilization results
- Air cooling system (Patent Pending)

ENVIRONMENTALLY FRIENDLY

- · No hazardous emission
- · No chemicals involved in the processes
- · No radiation involvement or exposure
- · Clean and environmentally friendly technology
- · Low energy consumption

SAFE & MODERN

- Using the latest technology
- · All safe equipment
- · There is no waste contact between operations.

EASY TO USE

- · Operators can be trained quickly
- · Computer-aided application
- Fully automatic operations
- · Instant data transfer via internet
